

Implementation (Screenshots & Description)

1. Main Page includes administrator login, selection of different movies and display of movies with their plot details. The <marquee> tag is used to animate the movies.

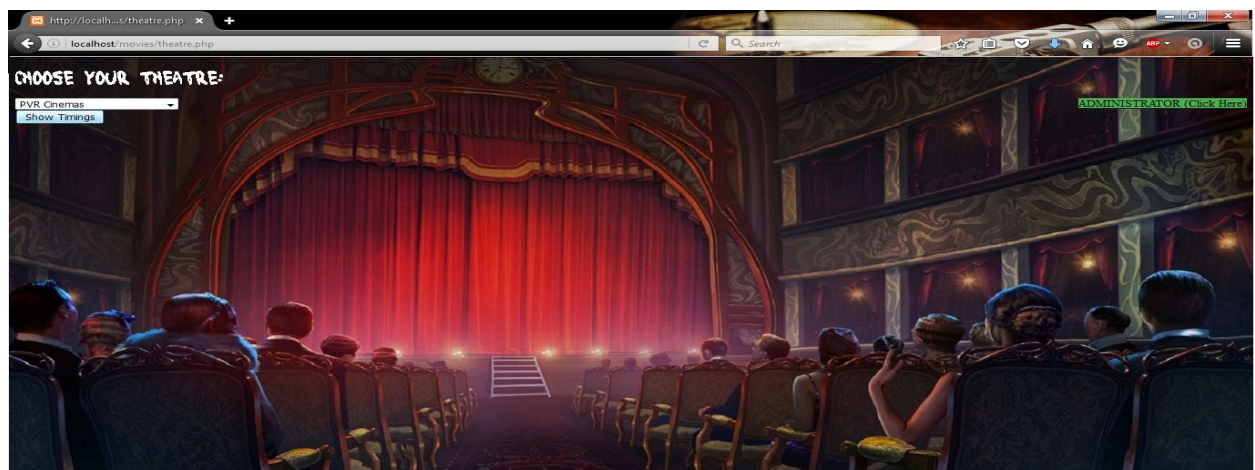

MINI PROJECT -> ONLINE MOVIE TICKET BOOKING

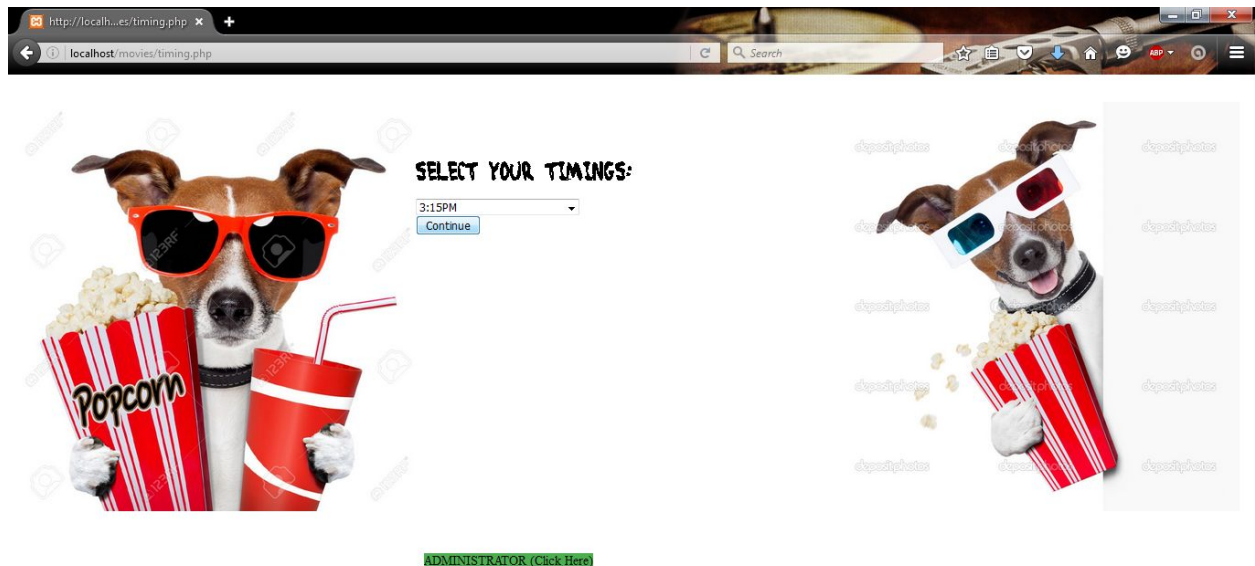

Which Movie Do You Want To Watch?

[ADMINISTRATOR \(Click Here\)](#)

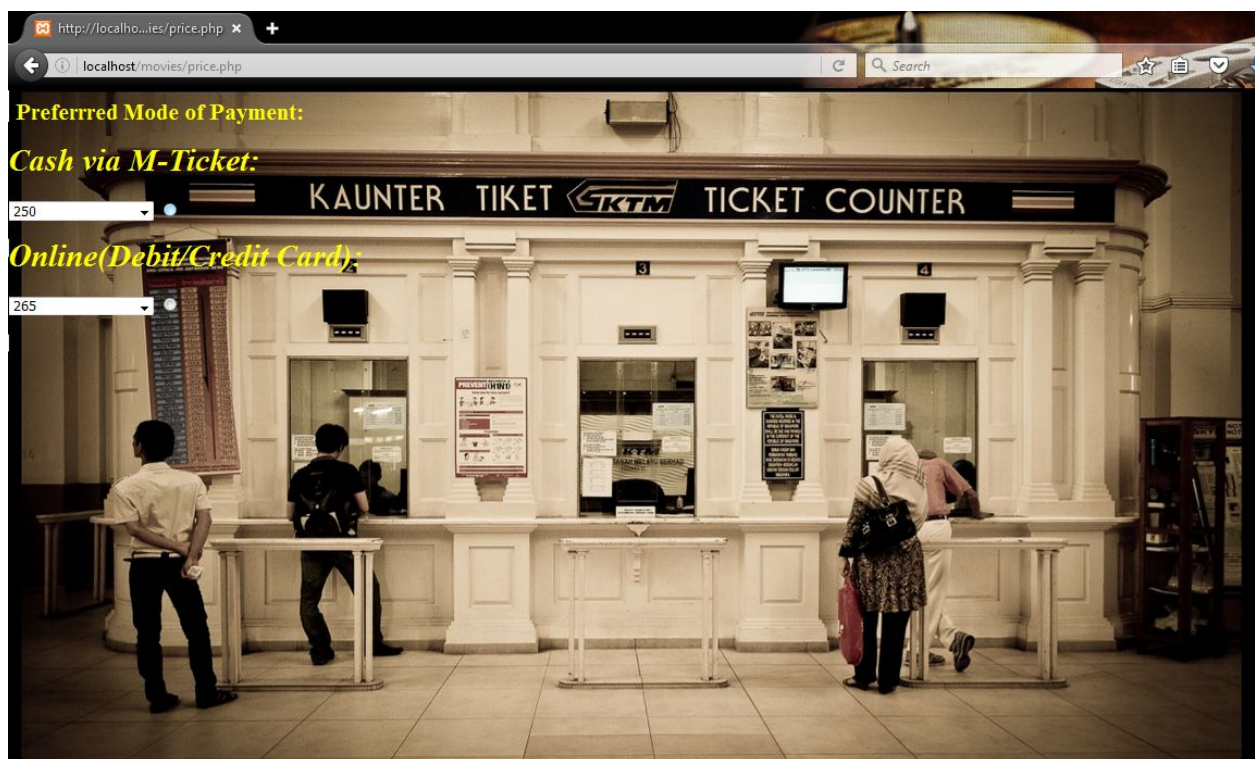

2. Here the theatres playing the movie selected by user is shown. This is done with the help of php which queries and gets the result from the mysql database.

3. Here the timings of the movie is shown which again is done with php code i.e. querying the theatre time by using the theatre previously selected.

4. Now, we reach the payment page and the user has 2 options whether to pay online or pay at the ticket counter in the theatre. For cash we generate a 4-digit number as a code for ticket and for credit we just send the details to their phone and email address

5. CASH (VIA M-TICKET)

a) The previous selection executes the query and gets you to this page. You can select no of tickets, put in your email id and phone number to get the 4-digit code.

Generate M-Ticket!

How Many Tickets?:

3

Enter Email Id:

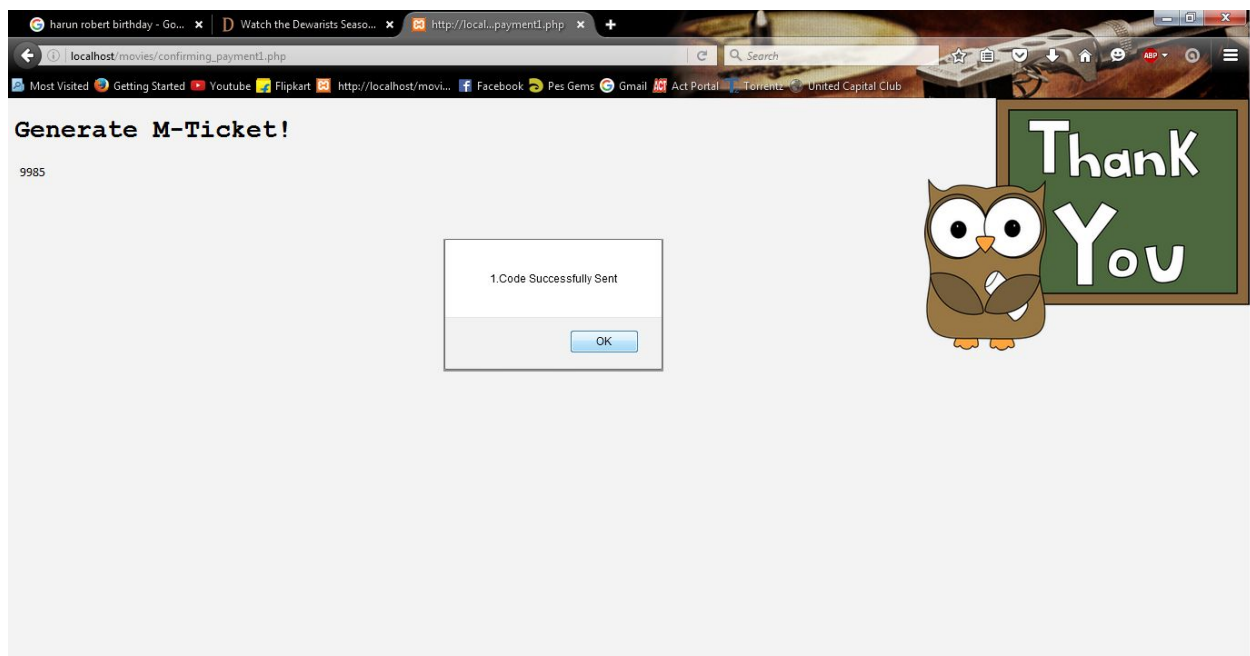

pradip.withu@gmail.co

Enter Mobile Number:

9742536841

Generate

b) The result is generated using alert boxes and display of the generated code. We have also post a "Thankyou" sign which is coded in javascript (on-click function) after your transaction is done.

6. ONLINE (DEBIT/CREDIT CARD PAYMENT)

a) If the user chose online payment, he comes here and is asked to fill in his details. This is done using simple <form> and <select> tags plus the animation of picture is done using css3.

Payment Details!

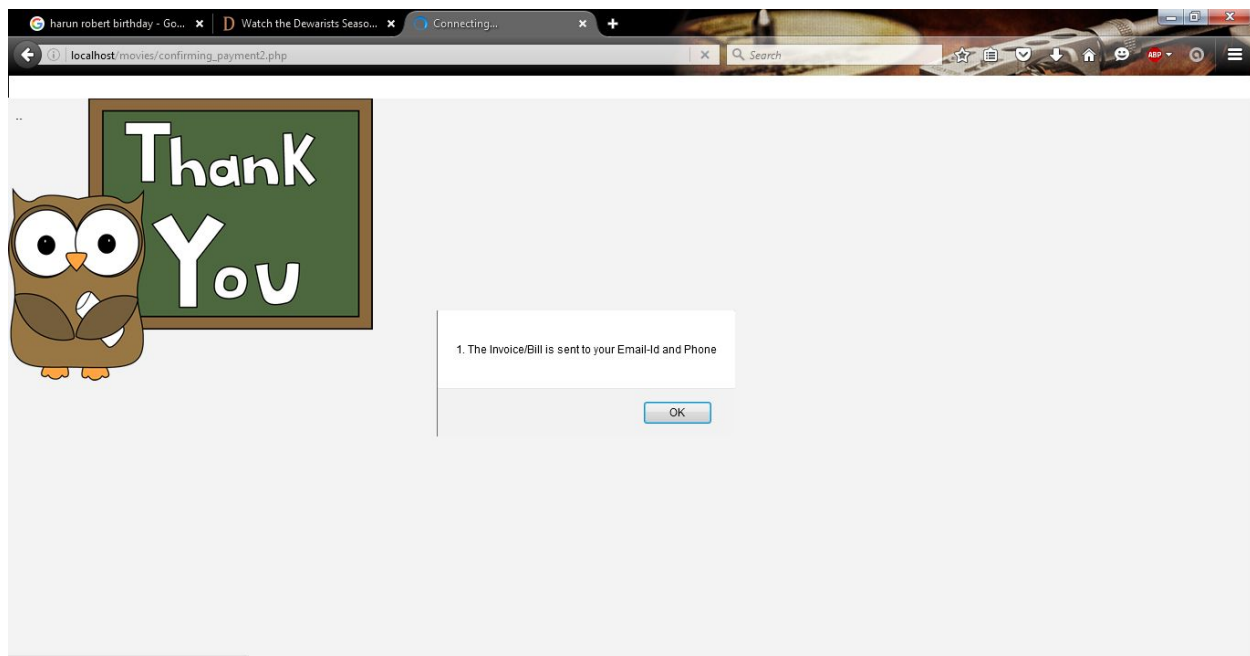

Customer Card-Number:	4756312098745321
Customer Card-Choice:	VISA Card (Credit)
Name Written Behind:	Rohan Sharma
CCV No:	222
Mobile Number (Invoice of ticket will be sent to this number):	9741236985

Make-Payment

ONLINE PAYMENT

b) Lastly, the end of credit page again like before, we use alert boxes to signal the confirmation of payment and result derivation.

ADMINISTRATOR SECTION:

1. Admin Page designed with the help of php and properly validated because not everyone should be allowed to enter. So there are only 2 administrators here.

2. Admin has 2 powers i.e. to make changes to the movie details and the theatres.

3. ADMIN MOVIE SETTINGS

a) Movie Id allotted, Movie Name put up and Movie Rating posted. Once these values are entered the values are stored in the database with the help of queries

Enter the Details:

Movie Id:	m10
Movie Name:	Bourne
Movie Rating/Buzz:	8.8

[Submit](#)

[Back](#)

Anonymous

b) As said earlier after the query is executed and successfully stored the message will be displayed or else not and the movie details are shown in the form of tables.

Successfully Added New Movie

Showing Table:

Movie-ID	Movie-Name	Movie-Rating/Buzz
m1	The Ruins	6.5
m10	Bourne	8.8
m2	Raees	7.6
m3	Kung Fu Panda 3	8.5
m4	The Transporter	7.7
m5	Conjuring 2	9
m6	Warcraft	9.5
m7	Looper	5.6
m8	Fast & Furious 8	8.1
